

TREE INSPECTION ROBOT COMPETITION

NOTES TO PARTICIPANTS

1. This competition is co-organized by the Singapore Robotic Games (SRG) committee and the National Parks Board (NParks).
2. Two group consultation sessions will be conducted by NParks in the months of May 2020 and Oct 2020. All interested participants may take the opportunity to attend these sessions and raise any enquiries relating to the design and function of the Tree Inspection Robot.
 - (i) The consultation sessions will be held at the same time and place for all interested participants, are not exclusive to each participating group.
 - (ii) The date and timing of the consultation sessions will be confirmed at a later date; as such, interested participants are encouraged to register their interest early with NParks to receive information regarding these sessions.
3. Teams that require a location with trees, and/or loose tree parts, for the conducting of robot trial runs may seek logistical support from NParks. NParks will make these arrangements on a per-available basis. Such arrangements will only be provided for logistical purposes, and no enquiries regarding robot design and function will be entertained during this process.
4. For the registration of interest, seeking of logistical support, and/or any other administrative enquiries relating to the Tree Inspection Robot competition, participants may drop an email to the following NParks representative:

Gervais Lee (Mr)
